UNIVERSITY PROFILE

Modern university

It is a young and growing university, distinguished by its flexibility and ability to take bold, innovative solutions.

Studies for the future

Study programmes, their modules are viable and drafted in accordance with the global labour market forecasts.

Focus on community

Strong community is the basis for the University life. Initiatives, ideas and proposals arising from the community are highly welcome and encouraged.

Beginning of career

KSU programmes, practice, advice, training methods are prepared so that after studies graduates can start a successful career in the chosen field.

International community

At least one foreign teacher in six months and active involvement of students in mobility programmes.

The study system focused on students and on the quality

Small groups of students allow teachers and administrative staff to divide personal attention to each student.

Development of creativity

Thinking wider and see more is what our students are taught. Creative and original way to solve problems, apply non-traditional methods to implement ideas.

Promotion of entrepreneurship

KSU encourages and supports student business initiatives and creation of start-ups. Students have the opportunity to test their abilities in the management of real projects.

Combination of knowledge and practice

University team includes experienced academics and successful practitioners of business, law, and IT.

Lifelong learning principle

KSU regularly organizes various courses, training and seminars not only for its students, but also professionals in their fields, seeking development, more knowledge, and new skills.

INTERNATIONAL RELATIONS

More than 110 international partners
3 International Consortiums
