Law

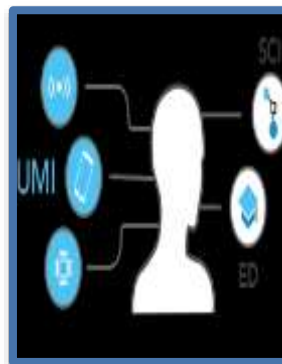

# RESEARCH PROJECTS (I)

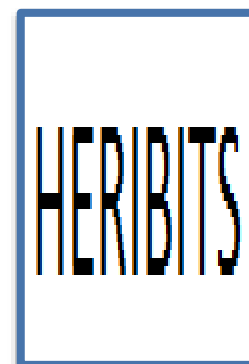

## Project 1

- *TRansforming Institutions by Gendering contents and Gaining Equality in Research* aims at promoting systemic interventions designed to have deep, long lasting and widespread impacts.

## Project 2

- *UMI-Sci-Ed (Exploiting Ubiquitous Computing, Mobile Computing and the Internet of Things to promote Science Education)* is a Horizon 2020 project, which aims at enhancing the attractiveness of science education and careers for young people (14-16 year olds) via the use of latest technologies.

## Project 3

- *Heritage Best Practice Models and Crowdfunding Intelligence* to enable a creative economy.

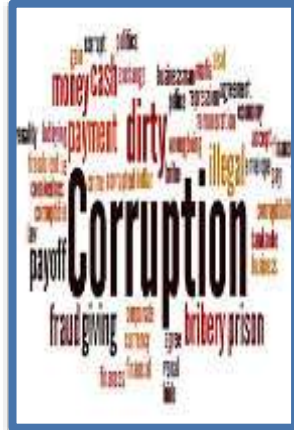

## Project 4

- *TandEM (Towards Empowered Migrant Youth in Southern Europe)* aims to improve higher education integration of third country nationals (TCNs), and to contribute to making societies in Croatia, Cyprus, Greece, Italy, Malta and Spain more socially inclusive.

# RESEARCH PROJECTS (II)

## Project 5

- PolitiCAnTI (*The Politicisation of Corruption and Anticorruption Strategies in Italy*) aims at investigating the politicisation and anticorruption by shedding light on the success or failure of political actors in adapting to and strategically utilising them.

## Project 6

- Citizens' rights and the quality of local public services (*Garanzia dei diritti e qualità dei servizi nella prospettiva dello sviluppo territoriale integrato*) addresses viable "ways" to rationalize public spending, without arming the quality of services provided to citizens and firms.

# RESEARCH IMPACT

## Public administration

- «Carta di *Avviso Pubblico*» is a code of ethics adopted by 31 Italian municipalities and hundreds of politicians.

## Public engagement

MediaLab is a laboratory that uses big data for social and political research.
